## Manufacture of All-Wire Collapsible Exhibition Coops

In 1912, the Keipper Coop became the first all-wire collapsible coop to be manufactured. Overtime, Keipper Coops have stood out superior to others and are used throughout the world by Fairs and Shows to display stock in the most attractive and neat way. The Keipper All-Wire Collapsible Exhibition Coop is manufactured with a medium hard galvanized wire alloyed especially for welding which gives it a much greater tendency to resist twisting and bending. Our coops have double the amount of stay wires than any other coop and therefore double the strength. This makes it the finest and strongest coop manufactured. All wires are electrically welded, forming them into one solid part. All Keipper Coops are equipped with our Special Cup holders.

For more information please visit us at: [www.keippercooping.com](http://www.keippercooping.com).

**No. 1 Poultry Coop**  
Two Compartments

Size of compartments, 25-1/2"L x 22"W x 27" high. Full length of section 54 inches. Large and roomy coop, especially adapted for private use, for training birds for shows and general use around henery. Will also

make fine coop for shows where large coop is wanted. Equipped with our patent cup holders and swinging doors 12 x 18. Made with swinging partitions so coop can be converted into a pen in a moment.

**No. 1A Single Coop**

Size 24"L x 24"W x 27" high. Has all the advantages of our compartment coops including cup holders, large swinging doors, etc. Has been found very satisfactory by pigeon breeders, rabbit breeders and others where this size coop meets with their requirements.

## BOTTOMS AND STEEL WIRE TRESTLE

The illustration shows our celebrated all-wire trestle hold one single bottom in such a manner so as to permit adding bottoms to the row at either end. You will note the efficient and strong manner in which they are braced and the general neat appearance they add to the show room. Bottoms are made from 1/4 inch material with a strong strip or cleat around the entire outside of bottom which holds the coops in place without fastening. Our trestling is the finest and strongest knock down trestling ever put in a show room, can be set up in a jiffy and is very rigid after set up.

**No. 2 Poultry Coop**  
Two Compartments

Size of compartments, 21"L x 21"W x 27" high. Full length of section 45 inches. An elegant coop for the show room, being large enough to coop two or three birds if necessary, and at the same time will not take up unnecessary room if birds are penned single. Also makes a neat coop for home use. Can be used for rabbits. Equipped with our patent cup holders and swinging doors, 12 x 18. Made with swinging partitions so coop can be converted into a pen in a moment.

**No. 5 Turkey Coop**  
Size 42"L x 30"W x 33" high

**No. 5L Goose Coop**  
Size 42"L x 30"W x 40" high

A wonderful coop for turkeys and geese, being strong and neat with a large swinging door, which makes the handling of birds easy. Equipped with our patent cup holder.

### **No. 6 Bantam Coop**

Three Compartments

Size of compartments, 15"L x 17"W x 16" high. Full length of section 57". An elegant coop for bantams, with double wire partitions the same as our all wire poultry coops, to stop cocks from fighting. These coops are indispensable for bantam breeders, and show these little pets to great advantage. Equipped with our patent cup holders and sliding doors. 8" x 8" inches.

### **No. 6L Bantam Coop**

Four Compartments

Size of compartments. 15"L x 18"W x 18" high double partitions. Doors 6" x 9" inches. Full length of section 69" inches.

### **No. 6LA Bantam Coop**

Two Compartments

Size of compartments, 15"L x 18"W x 18" high double partitions. Doors 6" x 9" inches. Full length of section 33" inches.

### **No. 8 Pigeon Coop**

Three Compartments

Size of compartments, 19"L x 15"W x 16" high. Full length of section 57" inches. Without doubt the finest coop for training and mating birds ever put on the market. Also commendable for shows to coop large birds such as pouters, runts, etc. Equipped without patent cup holders and sliding doors.

### **No. 9 Pigeon Coop**

Four Compartments

Size of compartments, 15"L x 15"W x 16" high. Full length of section 60". Built especially for show purposes, compartments being roomy enough for all birds and do not take up any more floor space than absolutely necessary; have given great satisfaction wherever used. Also commendable for training and mating coops of the smaller varieties. Equipped with our patent cup holders and sliding doors.

### **No. 9A Pigeon Coop**

Two Compartments

Size of compartments, 15"L x 15"W x 16" high. Full length of section 30 inches.

### **No. 9L Pigeon Coop**

Four Compartments

Size of compartments, 18"L x 18"W x 18" high. Full length of section 72" inches.

### **No. 9LA Pigeon Coop**

Two Compartments

Size of compartments, 18"L x 18"W x 18" high. Full length of section 36" inches.

### **Pigeon Judging Pens**

**No. 12A** Single Compartment Size 30"L x 22"W x 27" high

**No. 1P** Two compartment, each compartment 27"L x 22"W x 27" high. Full length of section 54" inches.

12A and 1P Coops made with all wires running vertically so Pigeons cannot walk up the sides.

### **No. 10 Cavy Coop**

Five Compartments

Size of compartments, 12"L x 15"W x 16" high. Full length of section, 60 inches. A grand Coop for Cavies, made with wire spaced 3/4" on center, to stop them from getting through. Positively the best Coop for Cavies in existence.

Manufacture of All-Wire Collapsible Exhibition Coops

### No. 11 Exhibition or Display Coops

One Compartment

Size 48"L x 36"W x 30" high. Makes a fine exhibition coop unsurpassed for use at shows for display of poultry or pigeons. Also very useful in the lofts of hennery for training, mating, breeding, etc. Positively no better display coop on the market.

### No. 12 Pen Coop

One Compartment

Size 36"L x 30"W x 30" high. Made expressly from exhibition pens of poultry and makes a splendid coop for that purpose. Also very handy for private use where a small display coop is wanted.

### No. 15 Dwarf Rabbit Coop

Three Compartments

Size of compartments, 13"L x 15"W x 16" high. Full length of section 45 inches. All wire 1 inch on center—swinging doors 7" x 16". Equipped with cup holders.

### No. 13 Cat or Rabbit Coop

Two Compartment

Size of compartments 21"L x 21"W x 21" high. Full length of section 45 inches. This coop shows your cats or rabbits in wonderful style at the show and gives a very pleasing effect to your catery or rabbitry for home use. Equipped with our patent cup holders and swinging doors, 12" x 14" inches. Made with swinging partitions so coop can be converted into a pen in a moments. Full length of section 45 inches.

### No. 13A Single Coop

Size 21"L x 21"W x 21" high. This coop is very handy for home use. It has one door 12" x 14" inches.

### No. 13J Cat Judging Coop

Two Compartments

Size 22 1/2"L x 21"W x 21" high. Full length section 45" inches. One metal end and metal partition.

### No. 14 Cat or Rabbit Coop

Two Compartments

Size of compartments, 25 1/2"L x 22"W x 22" high. Full length of section 54". Same size as the No. 1 Coop but only 22 inches high. Ideal when a little larger and roomier coop is desired. Made of gauge wire heavier than the No. 13. Equipped with cup holders and swinging partitions so coop can be converted into one large pen. Swinging doors 12" x 15" inches.

### No. 14A Single Coop

Size 25 1/2"L x 22"W x 22" high. This single coop is very handy for home use. It has one door 12 x 15 inches.

### No. 14J Cat Judging Coop

Two Compartments

Size of compartments, 27"L x 22"W x 22" high. Full length of section 54" inches. One metal end metal partition.

### Two Compartment Kitten Coops

**13K Kitten Coop.** Each Compartment 21"L x 21"W x 21" high. Full length section 45" inches.

**14K Kitten Coop.** Each Compartment 26"L x 22"W x 22" high. Full length sections 45" inches.

13K and 14K Coops made with vertical wires spaced 1" apart. Both Coops equipped with 16" wide swinging doors. Partitions can be swung back to make one large Coop.

### No. 11K Kitten Coop

Size 48"L x 36"W x 30" high. All vertical wires spaced 1" inch apart.

### No. 20 Kitten Coop

Two Compartment

Each compartment 35"L x 22"W x 22" high. All vertical wires spaced 1 inch apart. Coop equipped with 16" wide swinging doors. Full length of section 72".
